MEMBERS OF THE HUNGARIAN PARLIAMENTARY DELEGATION
IN PRAGUE.

The Union of the Soviet Socialist Republics gave suggestion to mutual exchange of parliamentary delegations between various countries. This suggestion was given in the conviction, that the exchange of parliamentary delegations will serve the cause of peace and development of friendly relations between nations. In these days the Hungarian parliamentary delegation is touring Czechoslovakia, visiting various works and getting acquainted with public and cultural life of the Republic.

The Hungarian parliamentary delegation headed by Sándor Rónai, Chairman of the Hungarian National Assembly, sight-seeing Prague in front of the ancient Old-Town-Clock.

CZECHOSLOVAK PEOPLE PROTEST WITH INDIGNATION
AGAINST THE CRIMINAL BALLOON ACTION.

[redacted] Sanitary workers of the Czechoslovak Red Cross in Košice have written a protest resolution saying among others: "With indignation we have received the news about the death of our co-worker Anna Lőrincová, chief nurse of the Red Cross, killed in the air crash near Levoča, caused by the collision with a "Free Europe" balloon. We protest against the balloon actions threatening people's lives, because it is our honourable task to look after the most precious gift of men - after people's health."

CZECHOSLOVAK PEOPLE PROTEST WITH INDIGNATION
AGAINST THE CRIMINAL BALLOON LOTION.

[REDACTED] The funeral of Anton Siegfried, administrative worker of the State Theatre in Košice, killed in the air disaster near Levoča. The hearts of all those who marched behind his coffin were filled not only with mourning the loss of a good man and colleague, but also with a just indignation against those, who trying to destroy the peaceful building in Czechoslovakia, do not stop before destroying human lives.

Czechoslovak News Agency Photo Service Prague, March 7, 1956.

RAILWAY LINE ZILINA - SPIŠSKÁ NOVÁ VES ELECTRIFIED.
The electrified railway line Zilina - Spišská Nová Ves /Slovakia/ was at the end of February festively set into operation. The tasks of the teams working on the 165 kilometres long line was extremely difficult in the unusually severe weather, frosts and snow storms in the mountain region. When in full operation, this electrified line saves 200,000 tons of coal annually, compared with an ordinary railway line.

[REDACTED] The festively decorated electric locomotive, driving the first train on the electrified line Zilina - Spišská Nová Ves /Eastern Slovakia/.

LUPTÁK BROTHERS PROCEEDING IN THE SHEPHERD'S
TRADITION OF THEIR FATHERS.

Every morning Jan and Martin Lupták are taking their sheep to mellow pastures of Zvolen hills, Slovakia. Their father and grandfather did the same, but they know of harder times as well. The long difficult months, when no labour was to be found and when not only shepherds, but farmers and town-folk as well could not make a living at home and had to emigrate en masse to look for employment and bread abroad. Those times are definitely past for Lupták brothers. To-day there is enough work in Slovakia for all. The shepherds' melodies changed into merrier tones. And now it is a pleasure to watch a days work of Lupták brothers who are with tender care looking after their flock of 300 Co-op sheep.

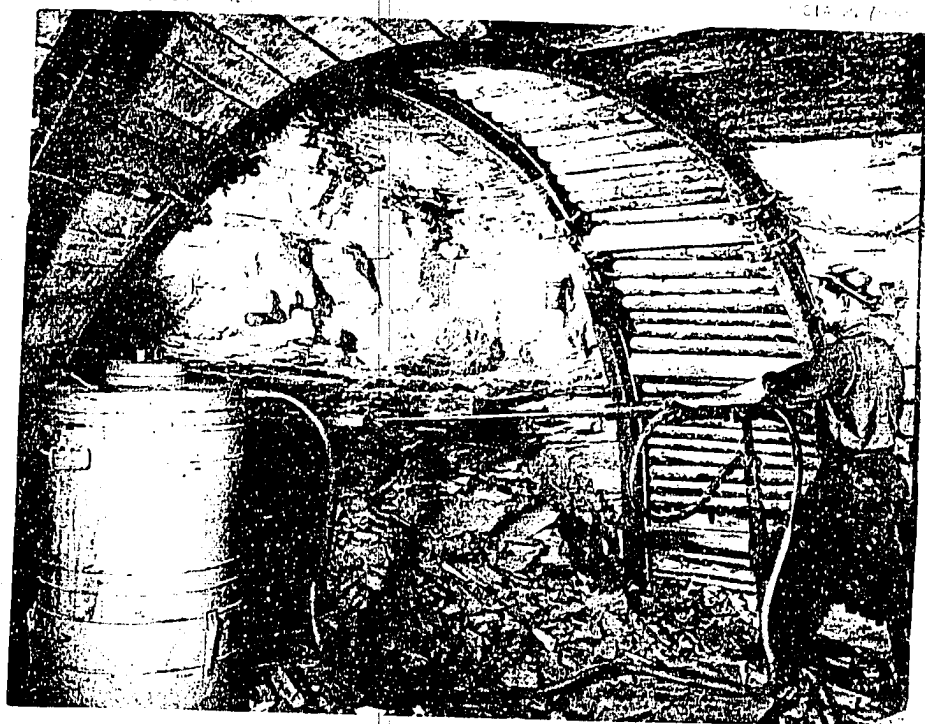

[redacted] Sweet melodies of Martin Lupták's "fuyara" are echoing on the pastures' slopes.

DUSTLESS BORING HAMMER FOR MINERS.

Oldřich Oboda of the Scientific Mining Research Institute of Ostrava-Radvanice invented a new boring hammer "BV-1", which does not whirl any dust, so harmful to miners. All the dust formed in the drill is being sucked in by the ejector in the centre of the hollow bore and is blown through a rubber hose into a special filter.

[REDACTED] Bronislav Ochmanský, holder of the Order of Labour and foreman of the speed-cutters group on the Petr Cingr Pit, Ostrava, introducing the new boring hammer BV-1 into practice.
